WARM CENTER

# "Old Town 'SPONSON' Canoe"

If you keep away from the water because of distrust of the ordinary rowboat or canoe, try this canoe. Boys and men, because of its safety, use it even more readily than the

*Shows difficulty of upsetting*

regular canoe. Girls' summer camps have scores of them. It is named "Sponson" from the air chambers built out each side and extending from stem to stern. Amidships the sponsons are 4" wide, 5" deep. This ample size doubles the air space and buoyancy as compared with

smaller designs. They add about 25 lbs. in weight. They are clear of the water and touch the water only when the canoe is careened.

Stock Color Dark Green. Extras page 41. Stock Sponson Canoes built on H. W. Model. Sponsons built to order (three weeks) on any models for \$23.00, except 20 ft. canoe (page 9) cost is \$25.00. Rowlocks can be added for use separately or at the same time with paddles. Rowing equipment page 38.

*Shows buoyancy when swamped*
